

KIT CONTENTS

- SI Ballistic M-Frame 2.0® spectacle with Clear Lens and Unobtanium® elastomeric nosepiece
- Neutral Grey, bright light protective lens
- Removable/adjustable retention strap
- Crush resistant carrying case
- Micro-fiber cloth bag suitable for lens cleaning and supplemental storage within carry case
- Use and care instructions printed on tear-proof, water resistant substrate

OAKLEY – SI BALLISTIC M-FRAME 2.0 ARRAY

The Oakley SI Ballistic M Frame 2.0 surpasses ANSI Z87.1 Industrial Standards for high-mass and high-velocity impact protection. These lightweight glasses are UV resistant and have an anti-fog coating with interchangeable lenses.

Easily purchase these 11-138's for your unit through the NSN.

Part Number: 11-138 /// NSN Number: 4240-01-525-3095

//// Protection & Safety

Two SI Ballistic Strike lenses in the suite, (Clear and Grey). Made from Oakley's high purity, optical grade polycarbonate called Plutonite®. All lenses block 100% of UVA, UVB, UVC and harmful violet-blue light to 400nm. The UV and harmful blue light protection is inherent in the Plutonite® lens material therefore remains intact regardless of surface scratches that may occur over the life of the product.

//// Light Transmittance

Clear Strike: 90% visible light transmittance suitable for use in low light to no light conditions.

Grey Strike: 16% light transmittance, meets the neutrality and chromaticity requirements. Suitable for bright conditions.

//// Optical Performance

Oakley HDO Optics in every lens. Lens meets or exceeds all optical requirements per ANZI Z87.1-2003 and EN 166-2001 Class 1.

//// Ballistics & Impact Resistance

100% ANSI Z87.1-2003 High Velocity Impact, High Mass Impact and penetration standards. Ballistic Fragmentation impact standards per MIL PRF-31013, Clause 3.5.1.1.

//// Field of View

Lens geometry has extended face-form (wrap) and pantoscopic tilt (rake) angles to ensure a large unobstructed lateral and vertical field of view, while maintaining adequate eye relief and venting volume.

//// Fit, Comfort and Equipment Compatibility

- Lens replacement: fast, no tools required
- Comfortable fit for all head sizes achieved via Three-Point Fit that requires no adjustment. Three primary contact areas: nose-bridge, left and right cranial areas
- Secure fit, even under wet conditions
- Nosepieces and earsocks made with a hydrophilic, high coefficient of friction elastomeric material ensure spectacles remain in place in all weather conditions and in all activities
- Fully compatible with helmet-mounted night vision devices
- Fully compatible with MICH, ACH, CVC and PASGT helmets

RAPID ACQUISITION PROVEN PERFORMANCE

Whether you have funding or need it, ADS is a prime on over 65 contracts and has the power to move your requirement forward.
