INTRINSICALLY  
SAFE HEADLAMP

**Manufacturer: Team Wendy**

**EXFIL SAR TACTICAL HELMET WITH RAILS-(color)- WITH POSTS**

**Part # 81R-YL-F**

Colors: YL=Yellow BK= Black RD= Red OR= Orange WH= White

- The only helmet on the market meeting mountaineering, whitewater, industrial, and military impact standards
- Designed specifically to protect against the broadest range of threats possible with a single helmet: this includes both high energy impacts (EN12492 mountaineering, EN14052 Industrial), and repeated low level impacts (EN1385 Whitewater, milspec/ACH blunt impact) across the surface of the head, not just protection against objects dropped onto the crown.
- No other helmet with integrated shroud comes close to this level of protection
- The shroud allows precise, seamless mounting of a variety of optical devices (night vision/thermal) as well as headlamps
- Seamless integration with ESS goggles using the optional ESS goggle posts: optimized for a perfect fit and easy stowing.
- Visor meeting ANSI Z87.1 and EN166-2B requirements will be available this fall.

PATENTED  
SPEEDCLIPS™

**Manufacturer: ESS**

**ESS Profile Pivot™ TW**

**Part # EE7001-01**

**Key Attributes/Features/Benefits:**
